

From Course to Token — on our own tools

Students don't just learn *about* AI — they learn by using **Cora AI Gateway** as **their AI coach**, then turn their skills/influence into **their own IP & digital assets** and tokenize it through **OneIP's end-to-end tokenomics** — no prior crypto/tokenomics knowledge needed. Every step runs on tools we own.

1 day
 UNLIMITED GATEWAY (INCL.)

Free
 ONEIP FOR LEARNERS

 OPC CATEGORY IN MY

→ MRR
 LEARN → KEEP USING → PAY

Why this compounds — the moat

- **They learn on our tool → keep paying.** The 1-day unlimited taste converts into ongoing Cora AI Gateway subscriptions (recurring MRR).
- **OneIP is free to hook, then takes a cut.** Free onboarding → we monetize their IP via storefront take-rate + token utility, not an upfront fee.
- **Network + tools are hard to copy.** Owned Gateway + OneIP + a growing OPC node network — a rival can copy a course, not this stack.

FIRST-MOVER · CATEGORY CREATION

First to establish the OPC brand in Malaysia

Own the OPC category with the full stack no one else has here — **AI tools + courses + a recognized certificate**. Win it with a credential worth having (HRD-Corp / outcomes) and MY-exclusive brand rights — not just being first.
