

AI Academy & AI Film Studio

How we move from tools to two revenue engines in Q3-Q4 2026 — training one-person companies to work with AI, and producing AI films — on the platforms we already own.

Owner Founder **Horizon** Q3 2026 → Q4 2026 **Tools** Cora AI · openIP **Status** Draft for review

THE PICTURE

Two engines, one AI toolchain

Everything we build feeds one flywheel: the Academy trains OPCs, they keep paying for the tools, the best creators publish on openIP and staff the Film Studio — and finished films become the marketing that fills the next cohort.

ENGINE A

AI Academy — OPC training

Online + offline classes and digital content that teach people to run as AI-powered one-person companies.

Cora AI Gateway

openIP

PAYS	Learners, then B2B / edu partners
TOOLS	Cora AI Gateway (Chat · Cowork · Video Studio) + openIP
REVENUE	Course fees + recurring tool subscriptions

ENGINE B

AI Film Studio

AI-made films, two paths: train OPCs to make films, and produce films for enterprise / SME with investment raised per movie.

Cora AI Film Studio

openIP · monetize IP

PAYS	Enterprise / SME clients; per-film backers
TOOL	Cora AI Film Studio (separate) — openIP monetizes the IP
REVENUE	Production fees + per-film funding + licensing

The flywheel — Academy → OPCs on Cora AI Gateway + openIP (recurring) → creators publish & monetize on openIP → top OPCs staff the Film Studio (Cora AI Film Studio) → films become case studies that fill the next cohort.

Which tool for what — short reels & daily AI work → Cora AI Gateway (Chat / Cowork / Video Studio) · produced films → Cora AI Film Studio · turn output & film IP into income → openIP.

WHO WE SERVE

The three OPC segments

Segment 1 scales on volume and is digital-first. Segment 2 carries the margin and is offline-first. Segment 3 runs on revenue-share and feeds the Film Studio directly.

#	SEGMENT	THEIR GOAL	PRODUCT PATH	OFFER POSTURE

1	New graduates Want an AI career, or no job yet	Employable AI skills, or launch a micro-business	Cora AI daily driver → openIP if they create	AI Career Accelerator — cohort, low price, high volume, scholarship / income-share
2	Mid-life, 35-55 New to AI, want it for work or a business	Perform at work with AI, or open a business	Cora AI for work productivity	AI for Professionals / "Second Act" — premium, hand-held, strong offline classes
3	Influencers / KOL	Monetize audience & content; make AI films	openIP (tokenize / sell / AI-clone) + Cora AI	Creator Monetization + AI Studio — revenue-share, done-with-you

QUARTER ONE

Q3 2026 · Jul-Sep VALIDATE & BUILD FOUNDATION

We're already ~4 weeks in. Q3 proves demand with small *paid* pilots — not scale.
Every milestone has a measurable exit.

Q3-M1 · Curriculum

Aug 15

Curriculum MVP v0 — one flagship track per segment

DONE WHEN

3 syllabi signed off; first 3 lessons recorded or written per track.

Q3-M2 · Cora AI

Aug 22

Cora AI Gateway "learner mode" — guided templates, onboarding, per-student usage

DONE WHEN

10 test students onboard; per-student usage dashboard live.

Q3-M3 · Cohort

Sep 5–30

Pilot cohort #1 (paid, small) — blended online + one offline session

DONE WHEN

≥30 paying pilots enrolled; ≥70% completion; NPS captured.

Q3-M4 · Film

Sep 15

Film PoC #1 on Cora AI Film Studio — one short, script → gen → edit → publish

DONE WHEN

1 piece published via Cora AI Film Studio; repeatable pipeline documented with cost/min & time.

Q3-M5 · openIP

Sep 20

openIP creator pilot — 3-5 KOLs, storefront + AI-clone live

DONE WHEN

3+ creators live; first real fiat sales settled.

Q3-M6 · Ops

Sep 30

Monetization & compliance base — pricing sheet + investment framing reviewed

DONE WHEN

Public pricing approved; compliance memo signed.

Q3 exit gate → scale

Proceed to Q4 scaling only if *all* of these clear. Miss any one, and we run an October hardening sprint before spending on growth.

≥30 paying learners

≥70% completion

1 published short · known cost

3+ live openIP creators w/ sales

Compliance memo signed

QUARTER TWO

Q4 2026 · Oct-Dec

SCALE & MONETIZE

Turn validated pilots into repeatable revenue, and land the first commercial film work.

Q4-M1 · Curriculum

Oct 24

Curriculum v1 — all 3 tracks complete + certificate / credential

DONE WHEN

All lessons live; assessment + certificate issued to cohort #1.

Q4-M2 · Cohort

Oct 15 – Dec 15

Cohort #2 at scale — open enrolment, 150-300 learners

DONE WHEN

≥150 paid enrolments; CAC tracked; ≥60% attach a Cora AI plan.

Q4-M3 · Offline

Nov

Offline expansion (Segment 2) — 2-3 in-person workshops, partner venue

DONE WHEN

2+ offline workshops delivered; waitlist for the next.

Q4-M4 · Film

Nov 30

Film Studio commercial pilot — deliver 2 paid client films

DONE WHEN

2 signed SOWs delivered & paid; testimonials + case studies.

Q4-M5 · Funding

Dec 5

Per-film investment model live — compliant structure + 1 funded film

DONE WHEN

Legal-approved template contract; ≥1 film funded under it.

Q4-M6 · openIP

Dec 12

openIP × Film IP — monetize one film's IP / merch / tokens

DONE WHEN

1 film monetized on openIP; revenue attributed.

Q4-M7 · Review

Dec 20

Annual review & 2027 plan — metrics, unit economics, what scales

DONE WHEN

Team review deck done; 2027 roadmap drafted.

What good looks like by December

150-300

Paid enrolments in cohort #2

≥60%

Learners on a recurring Cora AI Gateway plan

2 + 1

Client films delivered + 1 funded via per-film model

15+

Live openIP creators, growing fiat GMV

GUARDRAIL

Before we promote any per-film raise

Compliance gate — "investment per movie"

Promising profit or returns from others' effort can cross into **securities** territory (the Howey line). openIP's own house rule already reflects this — we speak in terms of **revenue** → **utility / licensing**, never dividends, guaranteed returns, or "invest and profit." Get counsel to bless the structure (film-financing SOW, sponsorship, pre-sale, or licensing) **and** the exact marketing language before any raise. This is a hard gate (Q3-M6 → Q4-M5).

WHAT COULD GO WRONG

Top risks & how we hold them

RISK	IMPACT	MITIGATION
Academy + Film + 3 segments all at once (thin team)	Nothing ships	Q3 = one flagship track + one film PoC; sequence, don't parallelize
Course sells but learners don't retain on the tool	No recurring revenue	Build Cora AI attach into the curriculum from lesson 1; measure attach rate
Per-film "investment" framed as securities	Legal exposure	Compliance gate before any raise; counsel-approved language only
AI film quality / cost not repeatable	Can't quote clients	Q3-M4 must document cost/min & time before selling client work
CAC too high for price-sensitive Segment 1	Unprofitable growth	Scholarship / income-share + organic & KOL funnels; keep S1 digital-first

THIS WEEK

Immediate next actions

- 1 Assign a real owner to each workstream (Curriculum, Platform, Film, GTM, Ops, Legal).
- 2 Lock the **one** flagship track and **one** segment that leads Q3 — start with whoever we reach cheapest.
- 3 Book the counsel review for film-investment framing now — it's a long lead.
- 4 Stand up the learner-usage dashboard in Cora AI Gateway (blocks Q3-M2).
- 5 Confirm Cora AI Film Studio is PoC-ready and schedule Film PoC #1 production week.

● Cora AI Gateway ● openIP ● Cora AI Film Studio ● Cross-cutting

Living document – update milestone status (done / in progress / blocked) at each weekly review. Prepared 2026-07-28.
